

## **Update for SA harness racing participants – 30<sup>th</sup> July 2020**

---

As we are all aware, the effects and consequences of COVID-19 are still very much at the forefront of the way we conduct ourselves in everyday life.

This includes our industry where, while there have been some concessions achieved with respect to raceday practices, we very much are operating in a fragile and ever-changing environment.

To this end we all must ensure that the achievements made with respect to harness racing continuing in the state are not compromised through inattention or non-observance of the requirements imposed by both the State and Federal authorities.

This including ensuring that our day-to-day practices in no way compromise the ability of harness racing to continue unimpeded in SA.

Resultantly, if anyone thinks they may have been put at risk of contracting the virus then they should take immediate precautionary steps to mitigate any potential risk to both themselves and the industry.

In conclusion, SA harness racing participants have done a remarkable job in observing and accepting all the impositions made, BUT the war is not over, and we all need to keep our foot on the pedal to ensure racing continues uninterrupted. This being particularly relevant at this time given the worsening situation interstate.

Finally, I wish you all well with your engagements over the coming weekend.

Keep well and safe.

Kind Regards

Ross Neal
